

MDV-C2000

GREASE

Exteme-pressure calcium grease with solid lubricant

APPLICATION

- **MDV-C2000** is formulated with 10 % of graphite designed for use on fifth wheels to support severe loads with a superior protection in damp and wet environments.
- **MDV-C2000** is a NLGI #1 grease with a soft texture.

ADANTAGES

- MDV-C2000 can be used in all the applications that require an excellent corrosion resistance and/or where excessive loads are present.

CARACTERISTICS

PROPERTIES	ASTM METHODE	MDV-C2000
NLGI grade	-	1
Soap/thickener	-	Calcium
Soap %	-	8
Appearance and color	-	Soft / black
Graphite %	-	10
Penetration... Worked 60X at 25°C	D217	310/340
Dropping point °C (°F)	D2265	88 (190)
Kinematic viscosity of the base oil 40°C , cSt	D445	628
Kinematic viscosity of the base oil 40°C , cSt	D445	28.5
Dropping point of the base oil °C (°F)	D97	-18 (0)
