

TRANSMISSION NA 80W-140

TRANSMISSIONS

Gear Oil Lubricant

USED

- **TRANSMISSION NA SAE 80W-140** is a high quality, multi-purpose, extreme pressure lubricant. It is designed to meet the latest specifications in forestry equipment, e.g., feller-bunchers and harvesters.
- Formulated from high viscosity index base stocks, additives from the latest technology that provides superior oxidation and foaming resistance.
- **TRANSMISSION NA 80W-140** provides extra protection against wear, scuffing and scoring of heavily loaded and highly stressed gear sets.

PERFORMANCES

Meets | API GL-5 (GL-4, GL-3)

CUSTOMERS BENEFITS

- Excellent protection against wear, scoring, and scuffing of heavily loaded gears, assuring long gear life.
- Outstanding thermal stability and oxidation resistance.
- Limited-slip properties.
- Excellent low temperatures properties.

CARACTERISTICS

PROPERTIES	ASTM TEST	80W-140
Viscosity in cSt at 100°C	D445	30
Viscosity Index	D2270	145
Pour Point in °C	D97	-40
Viscosity in cP (at °C)	D2983	< 100000(-26)

Remark: Although the preceding values are typical properties, they do not represent guaranteed characteristics.
